# Subject Index

## Volume 10

### Acid

Acid stream water remediation using limestone sand on Bear Run in southwestern Pennsylvania (LeFevre and Sharpe), 223

### Agricultural fields

Avian response to bottomland hardwood reforestation: the first 10 years (Twedt et al), 645

Mycorrhizal inoculation of big sacaton: implications for grassland restoration of abandoned agricultural fields (Richter and Stutz), 607

Secondary succession and natural habitat restoration in abandoned rice fields of central Korea (Lee et al), 306

### Allometry

Application of landscape allometry to restoration of tidal channels (Hood), 213

### Amazon

Rehabilitation of degraded areas of central Amazonia using direct sowing of forest tree seeds (Carmargo et al), 636

### *Aristida beyrichiana*

*Aristida beyrichiana* (wiregrass) establishment and recruitment: implications for restoration (Mulligan et al), 68

Burning influences on wiregrass (*Aristida beyrichiana*) restoration plantings: natural seedling recruitment and survival (Mulligan and Kirkman), 334

### *Artemisia tridentata*

Restoring structure in late-successional sagebrush communities by thinning with tebuthiuron (Olson and Whitson), 146

Wyoming big sagebrush density: effects of seeding rates and grass competition (Williams et al), 385

### Australia

Current loads of coarse woody debris on southeastern Australian floodplains: evaluation of change and implications for restoration (MacNally et al), 627

Decomposition of *Sarcocornia quinqueflora* on an iron-smelting slag substrate (Dick et al), 11

Smoke, mulch, and seed broadcasting effects on woodland restoration in Western Australia (Rokich et al), 185

### Austrian black pine

An analysis of forest restoration 120 years after reforestation on badlands in the southwestern Alps (Vallauri et al), 16

### Backyards

Importance of backyard habitat in a comprehensive biodiversity conservation strategy: a connectivity analysis of urban green spaces (Rudd et al), 368

### *Banksia*

Smoke, mulch, and seed broadcasting effects on woodland restoration in Western Australia (Rokich et al), 185

### Barrens

Effects of jack pine plantation management on barrens flora and potential Kirtland's warbler nest habitat (Houseman and Anderson), 27

Prescribed fire and herbicide effects on soil processes during barrens restoration (Rhoades et al), 656

### Basins

Use of shallow basins to restore cutover peatlands: hydrology (Price et al), 259

### Beetles

Revegetation and its effect on the ground-dwelling beetle fauna of Matiu-Somes Island, New Zealand (Watts and Gibbs), 96

### Big sacaton

Mycorrhizal inoculation of big sacaton: implications for grassland restoration of abandoned agricultural fields (Richter and Stutz), 607

### Birds

Avian response to bottomland hardwood reforestation: the first 10 years (Twedt et al), 645

Effects of jack pine plantation management on barrens flora and potential Kirtland's warbler nest habitat (Houseman and Anderson), 27

Forest restoration treatment effects on the nesting success of Western Bluebirds (*Sialia mexicana*) (Germaine and Germaine), 362

### Black willow

Effects of pre-planting soaking on growth and survival of black willow cuttings (Schaff et al), 267

### Book reviews

*Approaches to Coastal Wetland Restoration: Northern Gulf of Mexico*, by Turner and Streever (Craft), 731

*Ecological Assembly Rules: Perspectives, Advances, Retreats*, edited by Weiher and Keddy (Beauchamp), 428

*Environmental Restoration[m]Ethics, Theory, and Practice*, edited by Throop (Gunn), 733 Reference

*The Historical Ecology Handbook: A Restorationist's Guide to Ecosystems*, edited by Egan and Howell (Palik), 427

*Invasive Species in a Changing World*, edited by Mooney and Hobbs (Hueneke), 603

*Large Mammal Restoration: Ecological and Sociological Challenges in the 21st Century*, edited by Maehr et al (Leopold), 732

*Restoring Nature: Perspectives from the Social Sciences and Humanities*, edited by Gobster and Hull (Miller), 169

*Roadside Use of Native Plants*, edited by Harper-Lore and Wilson (Paschke), 171

*Salmon Without Rivers: A History of the Pacific Salmon Crisis*, by Lichatowich (Bisson), 603

### Bottomlands

Avian response to bottomland hardwood reforestation: the first 10 years (Twedt et al), 645

**Brazil**

Rehabilitation of degraded areas of central Amazonia using direct sowing of forest tree seeds (Carmargo et al), 636

**Bunchgrass**

Burning and grazing management in a California grassland: effect on bunchgrass seed viability (Dyer), 107

**Burning; see Fire****California**

An assessment of a small urban stream restoration project in northern California (Purcell et al), 685

Burning and grazing management in a California grassland: effect on bunchgrass seed viability (Dyer), 107

Hydraulic geometry: a geomorphic design tool for tidal marsh channel evolution in wetland restoration projects (Williams et al), 577

Physical evolution of restored breached levee salt marshes in the San Francisco Bay estuary (Williams and Orr), 527

Restoration of a native shrubland impacted by exotic grasses, frequent fire, and nitrogen deposition in southern California (Cione et al), 376

Soil nitrogen pools associated with revegetation of disturbed sites in the Lake Tahoe area (Claassen and Hogan), 195

**Camping**

Restoration of highly impacted subalpine campsites in the Eagle Cap Wilderness, Oregon (Zabin-ski et al), 275

**Carbon**

Effects of grazing on restoration of southern mixed prairie soils (Fuhlendorf et al), 401

Microbial community structure and carbon-utilization diversity in a mine tailings revegetation study (Moynahan et al), 77

Prescribed fire and herbicide effects on soil processes during

barrens restoration (Rhoades et al), 656

**Carex pensylvanica**

Effects of jack pine plantation management on barrens flora and potential Kirtland's warbler nest habitat (Houseman and Anderson), 27

**Cirsium arvense**

Rosette recruitment of a rare endemic forb (*Gaura neomexicana* subsp. *coloradensis*) with canopy removal of associated species (Munk et al), 122

**Coarse woody debris; see Trees****Coleoptera**

Revegetation and its effect on the ground-dwelling beetle fauna of Matiu-Somes Island, New Zealand (Watts and Gibbs), 96

**Colorado butterfly plant**

Rosette recruitment of a rare endemic forb (*Gaura neomexicana* subsp. *coloradensis*) with canopy removal of associated species (Munk et al), 122

**Connecticut**

Salt marsh restoration in Connecticut: 20 years of science and management (Warren et al), 497

**Connectivity**

Importance of backyard habitat in a comprehensive biodiversity conservation strategy: a connectivity analysis of urban green spaces (Rudd et al), 368

**Cornus sericea**

Winter burning and the reduction of *Cornus sericea* in sedge meadows in southern Wisconsin (Middleton), 723

**Crustaceans**

Early responses of fishes and crustaceans to restoration of a tidally restricted New England salt marsh (Raposa), 665

Quantifying vegetation and nekton response to tidal restoration of a New England salt marsh (Roman et al), 450

**Deer browsing**

Development of tree regeneration in fern-dominated forest understories after reduction of deer

browsing (de la Cretaz and Kelty), 416

**Demographics**

Demographic analysis of a disjunct population of *Froelichia floridana* in the mid-Ohio River Valley (McCauley and Ungar), 348

**Dennstaedtia punctilobula**

Development of tree regeneration in fern-dominated forest understories after reduction of deer browsing (de la Cretaz and Kelty), 416

**Dikes/levees**

Contrasting functional performance of juvenile salmon habitat in recovering wetlands of the Salmon River estuary, Oregon, U.S.A. (Gray et al), 514

Drainage and elevation as factors in the restoration of salt marsh in Britain (Crooks et al), 591

Estuarine and tidal wetland restoration in the United Kingdom: policy versus practice (Pethick), 431

Floristic development patterns in a restored Elk River estuarine marsh, Grays Harbor, Washington (Thom et al), 487

Hydraulic geometry: a geomorphic design tool for tidal marsh channel evolution in wetland restoration projects (Williams et al), 577

Modeling habitat change in salt marshes after tidal restoration (Boumans et al), 543

A monitoring protocol to assess tidal restoration of salt marshes on local and regional scales (Neckles et al), 556

Physical and functional response to experimental marsh surface elevation manipulation in Coos Bay's South Slough (Cornu and Sadro), 474

Physical evolution of restored breached levee salt marshes in the San Francisco Bay estuary (Williams and Orr), 527

Quantifying vegetation and nekton response to tidal restoration

- of a New England salt marsh (Roman et al), 450
- Restoration of freshwater intertidal habitat functions at Spencer Island, Everett, Washington (Tanner et al), 564
- Restoration of the Sieperda tidal marsh in the Scheldt estuary, the Netherlands (Eertman et al), 438
- Salt marsh restoration in Connecticut: 20 years of science and management (Warren et al), 497
- Using functional trajectories to track constructed salt marsh development in the Great Bay Estuary, Maine/New Hampshire, U.S.A. (Morgan and Short), 461
- Ectomycorrhizae**
- In vitro selection of boreal ectomycorrhizal fungi for use in reclamation of saline-alkaline habitats (Kernaghan et al), 43
- Elk River**
- Floristic development patterns in a restored Elk River estuarine marsh, Grays Harbor, Washington (Thom et al), 487
- Estuary**
- Contrasting functional performance of juvenile salmon habitat in recovering wetlands of the Salmon River estuary, Oregon, U.S.A. (Gray et al), 514
- Estuarine and tidal wetland restoration in the United Kingdom: policy versus practice (Pethick), 431
- Floristic development patterns in a restored Elk River estuarine marsh, Grays Harbor, Washington (Thom et al), 487
- Physical and functional response to experimental marsh surface elevation manipulation in Coos Bay's South Slough (Cornu and Sadro), 474
- Physical evolution of restored breached levee salt marshes in the San Francisco Bay estuary (Williams and Orr), 527
- Restoration of the Sieperda tidal marsh in the Scheldt estuary, the Netherlands (Eertman et al), 438
- Using functional trajectories to track constructed salt marsh development in the Great Bay Estuary, Maine/New Hampshire, U.S.A. (Morgan and Short), 461
- Eucalyptus camaldulensis***
- Current loads of coarse woody debris on southeastern Australian floodplains: evaluation of change and implications for restoration (MacNally et al), 627
- Everglades**
- Constraints of seed bank species composition and water depth for restoring vegetation in the Florida Everglades, U.S.A. (Smith et al), 138
- Exotic plants**
- Exotic plant species as problems and solutions in ecological restoration: a synthesis (D'Antonio and Meyerson), 703
- Restoration of a native shrubland impacted by exotic grasses, frequent fire, and nitrogen deposition in southern California (Cione et al), 376
- Fauna**
- Does facilitation of faunal recruitment benefit ecosystem restoration? an experimental study of invertebrate assemblages in wetland mesocosms (Brady et al), 617
- Fens**
- Factors affecting seed germination and seedling establishment of fen-meadow species (Isselstein et al), 173
- Rehabilitation of acidified floating fens by addition of buffered surface water (Bootsma et al), 112
- Ferns**
- Development of tree regeneration in fern-dominated forest understories after reduction of deer browsing (de la Cretaz and Kelty), 416
- Fertilizers**
- Effects of initial site treatments on early growth and three-year survival of Idaho fescue (Ewing), 282
- Responses of Jeffrey pine on a surface mine site to fertilizer and lime (Walker), 204
- Fescue**
- Effects of initial site treatments on early growth and three-year survival of Idaho fescue (Ewing), 282
- Festuca arundinacea***
- Prescribed fire and herbicide effects on soil processes during barrens restoration (Rhoades et al), 656
- Fire**
- Burning and grazing management in a California grassland: effect on bunchgrass seed viability (Dyer), 107
- Burning influences on wiregrass (*Aristida beyrichiana*) restoration plantings: natural seedling recruitment and survival (Mulligan and Kirkman), 334
- Effects of prescribed fire on shinnery oak (*Quercus havardii*) plant communities in western Oklahoma (Boyd and Bidwell), 324
- Fire season and dominance in an Illinois tallgrass prairie restoration (Copeland et al), 315
- Prescribed fire and herbicide effects on soil processes during barrens restoration (Rhoades et al), 656
- Restoration of a native shrubland impacted by exotic grasses, frequent fire, and nitrogen deposition in southern California (Cione et al), 376
- Season of burn influences fire behavior and fuel consumption in restored shortleaf pine[grassland] communities (Sparks et al), 714
- Winter burning and the reduction of *Cornus sericea* in sedge meadows in southern Wisconsin (Middleton), 723
- Fish**
- Contrasting functional performance of juvenile salmon habitat in recovering wetlands of the Salmon River estuary, Oregon, U.S.A. (Gray et al), 514

- Early responses of fishes and crustaceans to restoration of a tidally restricted New England salt marsh (Raposa), 665
- Quantifying vegetation and nekton response to tidal restoration of a New England salt marsh (Roman et al), 450
- Restoration of freshwater intertidal habitat functions at Spencer Island, Everett, Washington (Tanner et al), 564
- Floodplains**
- Current loads of coarse woody debris on southeastern Australian floodplains: evaluation of change and implications for restoration (MacNally et al), 627
- Forest development, wood jams, and restoration of floodplain rivers in the Puget Lowland, Washington (Collins and Montgomery), 237
- Florida**
- Constraints of seed bank species composition and water depth for restoring vegetation in the Florida Everglades, U.S.A. (Smith et al), 138
- Forbs**
- Rosette recruitment of a rare endemic forb (*Gaura neomexicana* subsp. *coloradensis*) with canopy removal of associated species (Munk et al), 122
- Forests**
- An analysis of forest restoration 120 years after reforestation on badlands in the southwestern Alps (Vallauri et al), 16
- Avian response to bottomland hardwood reforestation: the first 10 years (Twedt et al), 645
- Development of tree regeneration in fern-dominated forest understories after reduction of deer browsing (de la Cretaz and Kelty), 416
- Does weeding promote regeneration of an indigenous tree community in felled pine plantations in Uganda? (Chapman et al), 408
- Forest development, wood jams, and restoration of floodplain rivers in the Puget Lowland, Washington (Collins and Montgomery), 237
- Forest restoration treatment effects on the nesting success of Western Bluebirds (*Sialia mexicana*) (Germaine and Germaine), 362
- Rehabilitation of degraded areas of central Amazonia using direct sowing of forest tree seeds (Camargo et al), 636
- Responses of Jeffrey pine on a surface mine site to fertilizer and lime (Walker), 204
- Riparian forest restoration: increasing success by reducing plant competition and herbivory (Sweeney et al), 392
- Season of burn influences fire behavior and fuel consumption in restored shortleaf pine[n]grassland communities (Sparks et al), 714
- Smoke, mulch, and seed broadcasting effects on woodland restoration in Western Australia (Rokich et al), 185
- Use of shrubs as nurse plants: a new technique for reforestation in Mediterranean mountains (Castro et al), 297
- Froelichia floridana***
- Demographic analysis of a disjunct population of *Froelichia floridana* in the mid-Ohio River Valley (McCauley and Ungar), 348
- Fungi**
- In vitro selection of boreal ectomycorrhizal fungi for use in reclamation of saline-alkaline habitats (Kernaghan et al), 43
- Gaura neomexicana***
- Rosette recruitment of a rare endemic forb (*Gaura neomexicana* subsp. *coloradensis*) with canopy removal of associated species (Munk et al), 122
- Genetics**
- A comparative assessment of genetic diversity among differently-aged populations of *Spartina alterniflora* on restored versus natural wetlands (Travis et al), 37
- Germany**
- Restoration of a landfill site in Berlin, Germany by spontaneous and directed succession (Rebele and Lehmann), 340
- Grasses**
- Aristida beyrichiana* (wiregrass) establishment and recruitment: implications for restoration (Mulligan et al), 68
- Burning and grazing management in a California grassland: effect on bunchgrass seed viability (Dyer), 107
- Burning influences on wiregrass (*Aristida beyrichiana*) restoration plantings: natural seedling recruitment and survival (Mulligan and Kirkman), 334
- A comparative assessment of genetic diversity among differently-aged populations of *Spartina alterniflora* on restored versus natural wetlands (Travis et al), 37
- Effects of initial site treatments on early growth and three-year survival of Idaho fescue (Ewing), 282
- Fire season and dominance in an Illinois tallgrass prairie restoration (Copeland et al), 315
- Restoration of a native shrubland impacted by exotic grasses, frequent fire, and nitrogen deposition in southern California (Cione et al), 376
- Seedling survival from locally and commercially obtained seeds on two semiarid sites (Humphrey and Schupp), 88
- Wyoming big sagebrush density: effects of seeding rates and grass competition (Williams et al), 385
- Grasslands**
- Burning and grazing management in a California grassland: effect on bunchgrass seed viability (Dyer), 107
- Mycorrhizal inoculation of big sacaton: implications for grassland restoration of abandoned agricultural fields (Richter and Stutz), 607
- Patterns of species richness and composition in re-created grassland (Sluis), 677

- Season of burn influences fire behavior and fuel consumption in restored shortleaf pine[n]grassland communities (Sparks et al), 714
- Grazing**  
 Burning and grazing management in a California grassland: effect on bunchgrass seed viability (Dyer), 107  
 Effects of grazing on restoration of southern mixed prairie soils (Fuhlendorf et al), 401  
 Winter burning and the reduction of *Cornus sericea* in sedge meadows in southern Wisconsin (Middleton), 723
- Herbicides**  
 Prescribed fire and herbicide effects on soil processes during barrens restoration (Rhoades et al), 656  
 Restoring structure in late-successional sagebrush communities by thinning with tebuthiuron (Olson and Whitson), 146
- Hydraulic geometry**  
 Hydraulic geometry: a geomorphic design tool for tidal marsh channel evolution in wetland restoration projects (Williams et al), 577
- Idaho**  
 Effects of initial site treatments on early growth and three-year survival of Idaho fescue (Ewing), 282
- Illinois**  
 Fire season and dominance in an Illinois tallgrass prairie restoration (Copeland et al), 315
- Insects**  
 Does facilitation of faunal recruitment benefit ecosystem restoration? an experimental study of invertebrate assemblages in wetland mesocosms (Brady et al), 617  
 Revegetation and its effect on the ground-dwelling beetle fauna of Matiu-Somes Island, New Zealand (Watts and Gibbs), 96
- Invertebrates**  
 Does facilitation of faunal recruitment benefit ecosystem restoration? an experimental study of invertebrate assemblages in wetland mesocosms (Brady et al), 617
- Iron**  
 Decomposition of *Sarcocornia quinqueflora* on an iron-smelting slag substrate (Dick et al), 11
- Jack pine**  
 Effects of jack pine plantation management on barrens flora and potential Kirtland's warbler nest habitat (Houseman and Anderson), 27
- Jeffrey pine**  
 Responses of Jeffrey pine on a surface mine site to fertilizer and lime (Walker), 204
- Kirtland's warbler**  
 Effects of jack pine plantation management on barrens flora and potential Kirtland's warbler nest habitat (Houseman and Anderson), 27
- Korea**  
 Secondary succession and natural habitat restoration in abandoned rice fields of central Korea (Lee et al), 306
- Lakes**  
 Soil nitrogen pools associated with revegetation of disturbed sites in the Lake Tahoe area (Claassen and Hogan), 195
- Landfills**  
 Mounding as a technique for restoration of prairie on a capped landfill in the Puget Sound lowlands (Ewing), 289  
 Restoration of a landfill site in Berlin, Germany by spontaneous and directed succession (Rebele and Lehmann), 340
- Levees; see Dikes/levees**
- Lime**  
 Responses of Jeffrey pine on a surface mine site to fertilizer and lime (Walker), 204
- Limestone**  
 Acid stream water remediation using limestone sand on Bear Run in southwestern Pennsylvania (LeFevre and Sharpe), 223
- Longleaf pine**  
*Aristida beyrichiana* (wiregrass) establishment and recruitment: implications for restoration (Mulligan et al), 68
- Maine**  
 Using functional trajectories to track constructed salt marsh development in the Great Bay Estuary, Maine/New Hampshire, U.S.A. (Morgan and Short), 461
- Marshes; see also Wetlands**  
 Drainage and elevation as factors in the restoration of salt marsh in Britain (Crooks et al), 591  
 Early responses of fishes and crustaceans to restoration of a tidally restricted New England salt marsh (Raposa), 665  
 Fifteen years of vegetation and soil development after brackish-water marsh creation (Craft et al), 248  
 Floristic development patterns in a restored Elk River estuarine marsh, Grays Harbor, Washington (Thom et al), 487  
 Hydraulic geometry: a geomorphic design tool for tidal marsh channel evolution in wetland restoration projects (Williams et al), 577  
 Modeling habitat change in salt marshes after tidal restoration (Boumans et al), 543  
 A monitoring protocol to assess tidal restoration of salt marshes on local and regional scales (Neckles et al), 556  
 Physical and functional response to experimental marsh surface elevation manipulation in Coos Bay's South Slough (Cornu and Sadro), 474  
 Physical evolution of restored breached levee salt marshes in the San Francisco Bay estuary (Williams and Orr), 527  
 Quantifying vegetation and nekton response to tidal restoration of a New England salt marsh (Roman et al), 450  
 Restoration of the Sieperda tidal marsh in the Scheldt estuary, the Netherlands (Eertman et al), 438  
 Salt marsh restoration in Connecticut: 20 years of science and management (Warren et al), 497

- Using functional trajectories to track constructed salt marsh development in the Great Bay Estuary, Maine/New Hampshire, U.S.A. (Morgan and Short), 461
- Meadows**  
Factors affecting seed germination and seedling establishment of fen-meadow species (Isselstein et al), 173  
Winter burning and the reduction of *Cornus sericea* in sedge meadows in southern Wisconsin (Middleton), 723
- Mediterranean area**  
Riparian plant restoration in summer-dry riverbeds of southeastern Spain (Salinas and Guirado), 695  
Use of shrubs as nurse plants: a new technique for reforestation in Mediterranean mountains (Castro et al), 297
- Microbes**  
Microbial community structure and carbon-utilization diversity in a mine tailings revegetation study (Moynahan et al), 77
- Mining**  
Decomposition of *Sarcocornia quinqueflora* on an iron-smelting slag substrate (Dick et al), 11  
Microbial community structure and carbon-utilization diversity in a mine tailings revegetation study (Moynahan et al), 77  
Responses of Jeffrey pine on a surface mine site to fertilizer and lime (Walker), 204  
Topsoil stockpiling versus exposure to traffic: a case study on in situ uranium wellfields (Stahl et al), 129  
Wyoming big sagebrush density: effects of seeding rates and grass competition (Williams et al), 385
- Mississippi River**  
Nitrogen farming: harvesting a different crop (Hey), 1
- Mounding**  
Mounding as a technique for restoration of prairie on a capped landfill in the Puget Sound lowlands (Ewing), 289
- Mountains**  
Use of shrubs as nurse plants: a new technique for reforestation in Mediterranean mountains (Castro et al), 297
- Mowing**  
Restoration of a landfill site in Berlin, Germany by spontaneous and directed succession (Rebele and Lehmann), 340
- Mycorrhizae**  
Mycorrhizal inoculation of big santon: implications for grassland restoration of abandoned agricultural fields (Richter and Stutz), 607  
In vitro selection of boreal ectomycorrhizal fungi for use in reclamation of saline-alkaline habitats (Kernaghan et al), 43
- Nekton**  
Early responses of fishes and crustaceans to restoration of a tidally restricted New England salt marsh (Raposa), 665  
Quantifying vegetation and nekton response to tidal restoration of a New England salt marsh (Roman et al), 450
- Netherlands**  
Rehabilitation of acidified floating fens by addition of buffered surface water (Bootsma et al), 112  
Restoration of the Sieperda tidal marsh in the Scheldt estuary, the Netherlands (Eertman et al), 438
- New Hampshire**  
Using functional trajectories to track constructed salt marsh development in the Great Bay Estuary, Maine/New Hampshire, U.S.A. (Morgan and Short), 461
- New Zealand**  
Revegetation and its effect on the ground-dwelling beetle fauna of Matiu-Somes Island, New Zealand (Watts and Gibbs), 96
- Nitrogen**  
Effects of grazing on restoration of southern mixed prairie soils (Fuhlendorf et al), 401  
Fifteen years of vegetation and soil development after brackish-water marsh creation (Craft et al), 248
- Nitrogen farming: harvesting a different crop (Hey), 1  
Prescribed fire and herbicide effects on soil processes during barrens restoration (Rhoades et al), 656  
Restoration of a native shrubland impacted by exotic grasses, frequent fire, and nitrogen deposition in southern California (Cione et al), 376  
Soil nitrogen pools associated with revegetation of disturbed sites in the Lake Tahoe area (Claassen and Hogan), 195
- Ohio River**  
Demographic analysis of a disjunct population of *Froelichia floridana* in the mid-Ohio River Valley (McCauley and Ungar), 348
- Oklahoma**  
Effects of prescribed fire on shinery oak (*Quercus havardii*) plant communities in western Oklahoma (Boyd and Bidwell), 324
- Oregon**  
Contrasting functional performance of juvenile salmon habitat in recovering wetlands of the Salmon River estuary, Oregon, U.S.A. (Gray et al), 514  
Physical and functional response to experimental marsh surface elevation manipulation in Coos Bay's South Slough (Cornu and Sadro), 474  
Restoration of highly impacted subalpine campsites in the Eagle Cap Wilderness, Oregon (Zabinski et al), 275
- Peatlands**  
Use of shallow basins to restore cutover peatlands: hydrology (Price et al), 259
- Pennsylvania**  
Acid stream water remediation using limestone sand on Bear Run in southwestern Pennsylvania (LeFevre and Sharpe), 223
- Pine**  
Does weeding promote regeneration of an indigenous tree community in felled pine plantations in Uganda? (Chapman et al), 408

***Pinus nigra***

An analysis of forest restoration 120 years after reforestation on badlands in the southwestern Alps (Vallauri et al), 16

***Pinus palustris***

*Aristida beyrichiana* (wiregrass) establishment and recruitment: implications for restoration (Mulligan et al), 68

**Ponderosa pine**

Forest restoration treatment effects on the nesting success of Western Bluebirds (*Sialia mexicana*) (Germaine and Germaine), 362

**Prairies**

Effects of grazing on restoration of southern mixed prairie soils (Fuhendorf et al), 401

Effects of initial site treatments on early growth and three-year survival of Idaho fescue (Ewing), 282

Fire season and dominance in an Illinois tallgrass prairie restoration (Copeland et al), 315

Mounding as a technique for restoration of prairie on a capped landfill in the Puget Sound lowlands (Ewing), 289

Patterns of species richness and composition in re-created grassland (Sluis), 677

***Quercus havardii***

Effects of prescribed fire on shiner oak (*Quercus havardii*) plant communities in western Oklahoma (Boyd and Bidwell), 324

**Recreational activities**

Restoration of highly impacted subalpine campsites in the Eagle Cap Wilderness, Oregon (Zabiniski et al), 275

**Rhode Island**

Early responses of fishes and crustaceans to restoration of a tidally restricted New England salt marsh (Raposa), 665

Quantifying vegetation and nekton response to tidal restoration of a New England salt marsh (Roman et al), 450

**Rice fields; see Agricultural fields****Riparian plants**

Riparian forest restoration: increasing success by reducing plant competition and herbivory (Sweeney et al), 392

Riparian plant restoration in summer-dry riverbeds of southeastern Spain (Salinas and Guirado), 695

**Rivers**

Demographic analysis of a disjunct population of *Froelichia floridana* in the mid-Ohio River Valley (McCauley and Ungar), 348

Floristic development patterns in a restored Elk River estuarine marsh, Grays Harbor, Washington (Thom et al), 487

Forest development, wood jams, and restoration of floodplain rivers in the Puget Lowland, Washington (Collins and Montgomery), 237

Nitrogen farming: harvesting a different crop (Hey), 1

Riparian plant restoration in summer-dry riverbeds of southeastern Spain (Salinas and Guirado), 695

**Sagebrush**

Restoring structure in late-successional sagebrush communities by thinning with tebuthiuron (Olson and Whitson), 146

***Salix nigra***

Effects of pre-planting soaking on growth and survival of black willow cuttings (Schaff et al), 267

**Salmon River**

Contrasting functional performance of juvenile salmon habitat in recovering wetlands of the Salmon River estuary, Oregon, U.S.A. (Gray et al), 514

**Salt**

Decomposition of *Sarcocornia quinqueflora* on an iron-smelting slag substrate (Dick et al), 11

In vitro selection of boreal ectomycorrhizal fungi for use in reclamation of saline-alkaline habitats (Kernaghan et al), 43

**Salt marsh**

Drainage and elevation as factors in the restoration of salt marsh in Britain (Crooks et al), 591

Early responses of fishes and crustaceans to restoration of a tidally restricted New England salt marsh (Raposa), 665

Floristic development patterns in a restored Elk River estuarine marsh, Grays Harbor, Washington (Thom et al), 487

Hydraulic geometry: a geomorphic design tool for tidal marsh channel evolution in wetland restoration projects (Williams et al), 577

Modeling habitat change in salt marshes after tidal restoration (Boumans et al), 543

A monitoring protocol to assess tidal restoration of salt marshes on local and regional scales (Neckles et al), 556

Physical evolution of restored breached levee salt marshes in the San Francisco Bay estuary (Williams and Orr), 527

Quantifying vegetation and nekton response to tidal restoration of a New England salt marsh (Roman et al), 450

Salt marsh restoration in Connecticut: 20 years of science and management (Warren et al), 497

Using functional trajectories to track constructed salt marsh development in the Great Bay Estuary, Maine/New Hampshire, U.S.A. (Morgan and Short), 461

***Sarcocornia quinqueflora***

Decomposition of *Sarcocornia quinqueflora* on an iron-smelting slag substrate (Dick et al), 11

**Sedge**

Winter burning and the reduction of *Cornus sericea* in sedge meadows in southern Wisconsin (Middleton), 723

**Seedlings**

Burning influences on wiregrass (*Aristida beyrichiana*) restoration plantings: natural seedling recruitment and survival (Mulligan and Kirkman), 334

Factors affecting seed germination and seedling establishment of fen-meadow species (Isselstein et al), 173

- Riparian forest restoration: increasing success by reducing plant competition and herbivory (Sweeney et al), 392
- Seedling survival from locally and commercially obtained seeds on two semiarid sites (Humphrey and Schupp), 88
- Seeds**
- Burning and grazing management in a California grassland: effect on bunchgrass seed viability (Dyer), 107
- Constraints of seed bank species composition and water depth for restoring vegetation in the Florida Everglades, U.S.A. (Smith et al), 138
- Exotic plant species as problems and solutions in ecological restoration: a synthesis (D'Antonio and Meyerson), 703
- Factors affecting seed germination and seedling establishment of fen-meadow species (Isselstein et al), 173
- Rehabilitation of degraded areas of central Amazonia using direct sowing of forest tree seeds (Camargo et al), 636
- The relative importance of seedling method, soil ripping, and soil variables on seeding success (Montalvo et al), 52
- Secondary succession and natural habitat restoration in abandoned rice fields of central Korea (Lee et al), 306
- Seedling survival from locally and commercially obtained seeds on two semiarid sites (Humphrey and Schupp), 88
- Smoke, mulch, and seed broadcasting effects on woodland restoration in Western Australia (Rokich et al), 185
- Wyoming big sagebrush density: effects of seeding rates and grass competition (Williams et al), 385
- Shinnery oak**
- Effects of prescribed fire on shinnery oak (*Quercus havardii*) plant communities in western Oklahoma (Boyd and Bidwell), 324
- Shortleaf pine**
- Season of burn influences fire behavior and fuel consumption in restored shortleaf pine[n]grassland communities (Sparks et al), 714
- Shrubs**
- Restoration of a native shrubland impacted by exotic grasses, frequent fire, and nitrogen deposition in southern California (Cione et al), 376
- Use of shrubs as nurse plants: a new technique for reforestation in Mediterranean mountains (Castro et al), 297
- Winter burning and the reduction of *Cornus sericea* in sedge meadows in southern Wisconsin (Middleton), 723
- Wyoming big sagebrush density: effects of seeding rates and grass competition (Williams et al), 385
- Sloughs**
- Application of landscape allometry to restoration of tidal channels (Hood), 213
- Physical and functional response to experimental marsh surface elevation manipulation in Coos Bay's South Slough (Cornu and Sadro), 474
- Smoke**
- Smoke, mulch, and seed broadcasting effects on woodland restoration in Western Australia (Rokich et al), 185
- Smooth cord grass**
- A comparative assessment of genetic diversity among differently-aged populations of *Spartina alterniflora* on restored versus natural wetlands (Travis et al), 37
- Soil**
- Effects of grazing on restoration of southern mixed prairie soils (Fuhlendorf et al), 401
